French	<p>1. Go to pages 142 and 143 of your textbook. There is some new vocabulary in the green boxes that you will need to practice using. They go with what we were doing already about rooms in houses.            2. In your copybook, I want you to do two comprehensions. Remember, as always, put the page number from the textbook into your copybook first. The first is an easy one on the top of page 144. Then answer questions 1 to 8 that are in the blue boxes underneath. The answers just ask for the names of one of the people you have just read about.            3. The next one is a bit more of a challenge. There is a letter to read on page 145. Read this and answer questions 1 to 10 in the crimson box underneath it.            Remember any new words you will find in those green boxes, along with the others we already studied in the chapter. Finally do your best to revise as many words in those green boxes as you can.</p>
